PlayTime

Walker/Fitzgibbon completed three regional/national 15-second commercials for the CityPlace *Unlike AnyPlace* campaign. The featured picturesque romantic spot, entitled *PlayTime*, depicts a couple in cinematic scenes enjoying each other's company en route to the theatre at CityPlace — an entertainment, dining and shopping attraction in West Palm Beach. Layered scenes edited to the score punctuate the feeling of the spot with high emotion and fulfillment.

Deep Blue Something's signature miniature drinking bird, originally designed for the CD booklet by Hugh Syme, was shot in bluescreen in a special effects rig and then composited and animated in the live action scenes in the spot in the flame* by Digital Artist Alfredo-Gonzalez-Alvarez.

Cowboy Dave

Walker/Fitzgibbon produced a national commercial for VALIDSites. The spot features mom and dad going online seeking an entertainer for their son's birthday party and finding the perfect fit — Cowboy Dave! When the big day arrives, everyone is surprised to see a male stripper dressed as a cowboy! Thus, what you see on the Web isn't always what you get! The spot recently won a Best of Show and two Gold Addys in Florida.
